

Heatmap showing the presence of SXT resistance genes in various bacterial strains. The y-axis lists strains: SuIII, Sull, DfrA, and SXT resistance. The x-axis lists genes: SXT resistance, DfrA, Sull, and SuIII. The heatmap shows that SXT resistance is present in all strains, while DfrA, Sull, and SuIII are present in specific strains.

Strain	SXT resistance	DfrA	Sull	SuIII
SuIII	Present	Absent	Absent	Present
Sull	Present	Absent	Present	Absent
DfrA	Present	Present	Absent	Absent
SXT resistance	Present	Absent	Absent	Absent
